ASCS Officials Cites Farm Program Details

Major provisions of the 1982 farm programs were announced recently by Secretary of Agriculture, John R. Block, at an Agricultural Stabilization and Conservation Service conference in Kansas City, Missouri.

Richard Stafford, Chairman of the New York State ASC Committee, and John Steele and William Peck, State Committee members, attended the meeting, as well as Frank A. Walkley, State Executive Director of the New York State ASCS Office. Other State and National officials of ASCS were also present.

Walkley announced that an acreage reduction program will be in effect for wheat, corn, barley, and grain sorghum.

"Acreage reductions of these crops, with the higher loan rates also announced by Secretary Block, will help strengthen farm prices and reduce supplies," he said.

Program regulations call for a 15-percent reduction of wheat acres and a 10-percent reduction of feed grain acres. "To be eligible for loans and target price protection, farmers must sign up and comply with program requirements," Walkley said.

The target price for 1982 wheat will be \$4.05 per bushel. Loan rates will be \$3.55 per bushel for grain placed under loan.

Feed grain program participants will receive per-bushel target prices of \$2.70 for corn, \$2.60 for sorghum and barley, and \$1.50 for oats. The loan rates per bushel are: corn, \$2.55; sorghum, \$2.42; barley, \$2.08; and oats, \$1.31.

"Land taken from production must be devoted to conservation uses and must be eligible cropland protected from wind and water erosion," Walkley said. The land may not be mechanically harvested; however, farmers will be permitted to graze this acreage except during the six principal growing months.

"Farmers can enter their 1982 wheat and feed grain crops immediately into the grain reserve without waiting for their regular loans to mature. Storage payments will be 26 1/2 cents a bushel, and the loan level will be higher than for regular loans," the ASCS official said. The reserve loan rates are \$4.00 per bushel for wheat, \$2.90 for corn, \$2.75 for grain sorghum, \$2.37 for barley, and \$1.49 for oats. Walkley said, "Secretary Block emphasized that there would be no cap placed on the grain reserve."

Further details of the 1982 farm programs may be obtained from the Clinton County ASC office, 12 Healey Ave., Plattsburgh.
